

Starke County Highway Department Monthly Report – June 5th, 2017

ADA/TITLE VI COMPLIANCE

Three weeks ago the Superintendent inquired as to the status of our county ADA/Title VI compliance to verify our eligibility for State and Federal funds. He was told we needed to update and/or information

Starke County is missing the following documentation:

- 1) ADA transition plan, self-evaluation
- 2) TITLE VI implementation plan
- 3) TITLE VI assurances
- 4) complaint policy / log / form
- 5) external complaint of discrimination policy
- 6) LEP plan
- 7) organizational chart
- 8) voluntary public involvement survey
- 9) I-speak cards.

These are due by June 12th

Temporary ADA Coordinator

2016 ANNUAL REPORT

The Superintendent submitted the Starke County annual operations report to LTAP as required by INDOT for State and Federal Road Funding. The Commissioners are being given a copy tonight for their review and signature.

CURRENT MAINTENANCE ACTIVITIES

- 1) Drainage
- 2) Mowing
- 3) Patching
- 4) Work Crew- Weed eating signs and bridges
- 5) Dust Control

TRANSMISSION LINE PROJECT – NORTH BEND AND CALIFORNIA TOWNSHIPS

We have received many complaints about the damage done to the roadways by the workers installing the transmission lines

We have taken steps to mitigate the damage

- 1) We have sent our crews out repeatedly to do temporary fixes. We have kept track of all materials and labor for this effort.
- 2) We have coordinated with NIPSCO to have their crews do some of the temporary repairs.
- 3) On a weekly basis we have filmed the progressive deterioration of the roadways involved
- 4) We rated the roadways before construction began using the PASER system.

CURRENT BRIDGE REPLACEMENT PROJECTS

County Bridge #46 (CR900E, .8 miles SR10) Construction is 98% complete. This bridge will be reopened on June 12, 2017

County Bridge #47 (CR625S, just west of 875E) Construction on this bridge began on May 30th. The bridge should be reopened sometime in July.
